## SANATHANA DHARMA PARICHAYA YAJNAM

(Haindhava Nirvachana Yathra)

Humanity's very habitat is at risk. Climate change has become unpredictable. For another TEN years, Mother Earth doesn't seem capable of sustaining us. Second, human society is collapsing. Hypocrisy has become commonplace and we live in an age where the truth cannot be told, Relationships of the heart are falling apart. We need to secure the human race and the Earth's habitat for the next generation.

## What now .....?

Humanity is facing an unprecedented crisis. Our habitat is under threat from unpredictable climate change, which may render the Earth uninhabitable within a decade. Furthermore, human society is collapsing under the weight of hypocrisy, where truth is often suppressed, and honesty can be life-threatening. Malevolent forces are flourishing, and goodness is dwindling. Everything is commodified, and indulgence is the norm. The notion that evil is good is gaining traction, and heartfelt relationships are disintegrating. To prevent humanity's extinction and preserve the Earth, we must revolutionize the current system and establish a new order based on truth, love, peace, and prosperity. This requires humanity to evolve into Complete Human beings. But what does it mean to be a Complete Human being?

Embarking on this journey requires exploring Hinduism, the sole path to transform humanity from its animalistic state to true humaneness. By embracing Hinduism, we can ascend to become authentic human beings, achieving global peace, unity, and salvation. Hindus must spearhead this noble endeavor, sharing their distinctive values: peace, tolerance, patience, acceptance, unity in diversity, unconditional love, and harmony with nature. These values, refined through tradition, observation, and analysis, are vital for the world today.

We must comprehend and impart the Sanatana Tattva doctrines, which can awaken humanity to its divine potential, bestowing individuals with their identity and purpose. Our objective is to secure a thriving planet for future generations. This is an epochal mission and opportunity to become true human beings by uniting the world. The entire destiny of the Mankind is bound up with the destiny of HINDUS. Once if the Hindus are lost in darkness, the world has no future. To safeguard Mother Earth and humanity from the precipice of destruction, and to secure a future where generations to come can flourish in peace and prosperity, collective action is imperative - and it must begin now.

Furthermore, your investment in the book unlocks an incredible business opportunity, generating an income stream between ₹20 and ₹96 lakhs. As a bonus, we're offering a special gift for those passionate about spreading Hindu Dharma. Seize this chance - call now to learn more.....
